

CoderDojo

Bianca Rivera

Long Beach Public Library

What is it?

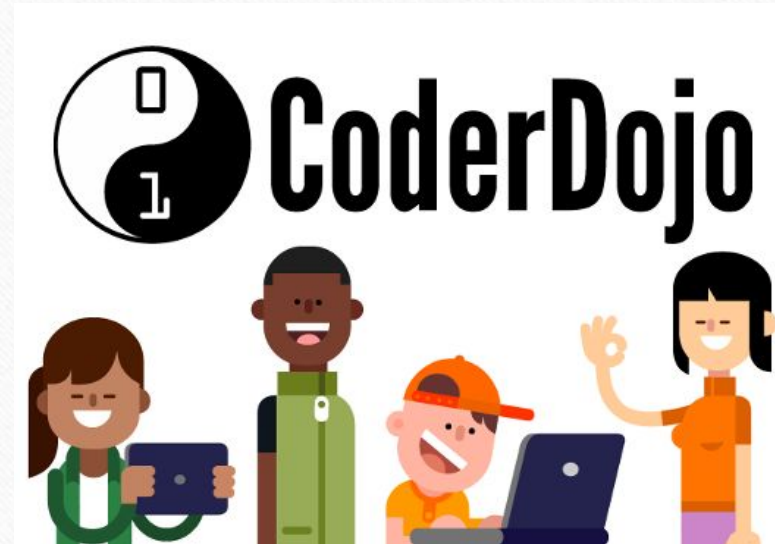

- Coding club for youth ages 7-17 (But the content could be used for adults!)
- Youth can learn the basics of
 - Coding in Python, JavaScript, Ruby or PHP
 - Building a simple website, app or a game
 - Physical computing: Raspberry Pis, Arduinos, Microbits or Arduino LilyPad wearables
- FREE lessons and amazing customer service [support](#)

Mentor Support

- Plenty of volunteer resources
- Ready-made lessons and digital badges
- No coding or technical experience necessary for most volunteers
- Clubs do highly benefit from having one experienced coder
- A unique way to give teen volunteers community service credit

Other Options

- Girls Who Code
- Google CS First
- Black Girls Code
- Code HS
- Code Club International
